

AHMED NASSER

Full Stack Developer

01025990350

info@ahmednasser.dev

Dubai, UAE

SUMMARY

Full stack developer with 5+ years building production web and mobile applications across government, real estate, and enterprise sectors. Core strength is end-to-end ownership: API architecture, relational database design, and frontend development, skills applied across Laravel/React and Python and Angular, with Microsoft Azure fundamentals underway to support cloud deployment and DevOps workflows.

WORK EXPERIENCE

Full Stack Developer, Unitra Trading

Dubai, UAE

2021 – Present

- Developed a Multi-vendor ERP SaaS in Laravel and Django (Backend) and React / Angular (frontend) .
- Designed and built RESTful APIs with < 1s response times, integrating frontend applications with backend services and ensuring seamless data flow.
- Led the design and delivery of multiple enterprise-grade OutSystems applications for a multi-vendor ERP SaaS platform, utilizing Reactive Web and Mobile architectures to streamline vendor operations.

Full Stack Developer, Sword Group

Dubai, UAE

2024 – 2025

- Developed a large-scale government website for UAE national statistics, delivering a critical public platform for accessing official statistical data.
- Integrated official statistics APIs, navigating challenging API architecture to fetch, process, and display real-time statistical data accurately.
- Delivered all project milestones ahead of strict government deadlines while maintaining high quality and reliability standards.

Software Developer & Co-Founder, Althiqah Technology

Dubai, UAE

2022 – 2025

- Co-founded and managed Althiqah Technology, overseeing project delivery, client relationships, and technical development across multiple web applications.
- Developed a comprehensive real estate management system using the Yii framework, implementing CRM integration APIs, property listings, and separate admin/user portals for streamlined property management.
- Managed end-to-end project lifecycles from requirements gathering and technical planning through development, testing, and client delivery.

Junior Software Developer, SmartWare

Dubai, UAE

2020 – 2021

- Designed and developed a complete WordPress news platform from scratch, handling the full project lifecycle including planning, development, and deployment.
- Contributed to C# and .NET web application development.
- Built a Laravel-based e-commerce store with core functionality.

EDUCATION

- University of Sharjah, Bachelor of Sustainable & Renewable Energy Engineering

Sep 2020 – Dec 2025
